

I request that the FCC NOT implement any proposal that would diminish the protection that I currently receive from Indiana's Telephone Privacy Law. Prior to this law, my life was interrupted AT LEAST once a day. I found it extremely stressful to rush to the phone, only to be hassled by a telemarketer. If telemarketers want access to MY private phone, they should pay for MY phone services. As long as I am paying for use of MY phone, I should have the right to exclude its commercial use.
